Dear Sir or Madame:

Re: Water Right Permit No. **G2-27450 – FINAL NOTICE**

In reviewing your file, I noticed we have not received your Proof of Appropriation form. A previous reminder letter was sent on **October 3, 2005**, to which there was no response. This letter is to remind you that the development schedule of your water right permit required that water be put to beneficial use and the Proof of Appropriation form be submitted by **February 1, 2005**.

There are a number of possible steps you may need to take in order to bring your permit back into good standing, depending on the status of your project. Please refer to the following chart:

If this is the case:	You need to do this within thirty (30) days of the date of this letter:
You have put the water to full beneficial use .	Complete and submit the Proof of Appropriation form. The form must be <u>notarized</u> , and include the parcel number for the point of withdrawal/diversion. Please include evidence that shows you have installed an approved measuring device, as well as any metering data that you have collected on the above-referenced water.
You need more time to put the water to beneficial use.	1. Submit a written request for an extension (refer to enclosed fact sheet for instructions). 2. Submit extension fee (\$50.00).
You no longer intend to develop your project.	Notify Ecology's Southwest Regional office in writing.
You need more information.	Contact our office at (360) 407-6300.

If we do not hear from you within sixty (60) days of the date of this letter, your permit will be in jeopardy of cancellation without further notice.

If you have any questions, please contact me at (360) 407-6918 or at abro461@ecy.wa.gov.
Thank you for your attention to this matter.

Sincerely,

Abby Brown

Dear Sir or Madame:

Re: Water Permit No. G2-27450 (Bell Hill Well #2)

While checking the progress of your water rights, I noticed that you have not sent in the Proof of Appropriation Form.

If you are using the full amount of water shown on your permit, please fill out the enclosed Proof of Appropriation form, have it notarized, and return it to this office. The statutory recording fees are to be sent in as two separate remittances in the form of checks or money orders. Cash will NOT be accepted. **Send both remittances to the Department of Ecology.**

\$5.00 payable to the Department of Ecology
AND
\$21.00 payable to the Pierce County Auditor

Also, the County Auditor is requiring that we have the parcel number(s) for the point of withdrawal/diversion and the place of use if different. Please send those numbers to us with your recording fees.

By following the above instruction, your final water right will be prepared, sent to your County Auditor for recording, and then forwarded to you by your County Auditor.

In addition, one of the provisions of the permit is that a metering device be installed and that meter readings be recorded at **least monthly**. Please include meter readings for a least the past year with the completed Proof of Appropriation form.

If more time is required to put the water to full use, you should request an extension of time in writing. By statute, a **\$5.00 fee per year must accompany such a request, together with a showing of good cause why your extension should be granted and a report of progress made during the last year.** The Proof of Appropriation for your water right permit was due on, **February 1, 2005** if an extension is needed, please send **\$5.00** payable to the Department of Ecology along with your request to extend your file until **February 1, 2006.**

If we do not hear from you within **thirty (30) days** from the date of this letter, we shall be forced to assume that you are no longer interested in retaining the permit, and action will be taken resulting in cancellation.

If you have any questions or concerns about any of this information, please contact Tina Russell at (360) 407-6918 or myself at (360) 407-0270.

Dear Sir or Madame:

Re: Water Right Permit No. G2-27450

In compliance with your request, you are hereby granted an extension of time to put the water to full beneficial use and file notice of such action under the above mentioned permit.

Please submit the following when the actual water has been put to full beneficial use:

- ° Proof of Appropriation form filled out and notarized
- ° \$10.00 check payable to the Pierce County Auditor's Office
- ° \$5.00 check payable to the Department of Ecology

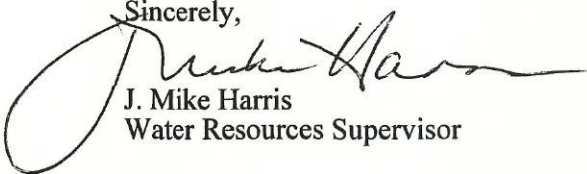

Please send both checks to the Department of Ecology and we will forward the Auditor check along with your Certificate to the County Auditor's Office for recording. **Also, the County Auditor is requiring that we have the parcel number for your property added to your Certificate. Please provide the parcel number for the point of withdrawal/diversion and the place of use.**

If you do not expect to have the water put to full beneficial use by **February 1, 2005**, you should request further extensions, as needed. To request additional extensions, you will need to submit a letter explaining why an extension is needed, including how many more connections are proposed on this water system. You may extend for more than one year at a time at a rate of \$5.00 per year.

This order may be appealed. Your appeal must be filed with the Pollution Control Hearings Board, PO Box 40903, Olympia, WA 98504-0903 within thirty (30) days of the date this Order was mailed by the Department of Ecology. At the same time a copy of your appeal must be sent to the Department of Ecology, c/o Appeal Coordinator, PO Box 47600, Olympia, WA 98504-7600. Your appeal alone will not stay the effectiveness of this order. Stay requests must be submitted in accordance with RCW 43.21B.320. These procedures are consistent with Chapter 43.21B RCW.

If you have any questions or concerns about any of this information, please call Sheri Carroll at (360) 407-0240 or Deb Hunemuller at (360) 407-0290.

SUBJECT: WATER RIGHT PERMIT EXTENSIONS
CITY OF DUPONT, PIERCE COUNTY, WASHINGTON
G&O #00426

Dear Ms. Hunemuller:

On behalf of the City of Dupont, we are requesting an extension of the development schedule for two permits. First, for Permit No. G2-27450P, we request an extension of the date for which the water is put to full beneficial use. The date specified by Permit No. G2-27450P for proof of appropriation was February 1, 1994. Due to high levels of manganese present in this source, known as Bell Hill Well No. 2, the City has attempted to pump this source at a lower rate in order to permit blending the water with other lower manganese sources. The City of Dupont has not yet grown to the extent suggested in the Report of Examination for this source and full buildout with beneficial use of this source will take additional time. Due to these water quality issues and the pace of construction, we are requesting extension of the date for full beneficial use of this source until February 1, 2005. Per your letter of August 1, 2000, we are enclosing a check payable to the Department of Ecology for \$55.00.

The second permit extension request is for Permit No. G2-29489, Bell Hill Well No. 3. The construction schedule specified for this well was September 1, 1999. The installation of pumping equipment for Bell Hill Well No. 3 was initiated this past July with anticipated completion early in 2001. We request an extension until April 30, 2001 for completion of source construction. The September 1, 2019 date specified by Permit No. G2-29489 for full beneficial use of this source is satisfactory and no change is requested for the date of proof of appropriation.

Ms. Deb Hunemuller
October 10, 2000

These extensions should enable the City of Dupont to meet the intent of each permit and more fully utilize its resources as growth continues. If you have any questions regarding this letter, please contact me at 360-754-4266.

Very truly yours,

GRAY & OSBORNE, INC.

Dear Mr. Foreman:

Re: Proof of Appropriation Form and Fees, Bell Hill Well No. 2 (Ground Water Permit No. G2-27450)

At your suggestion, I spoke with Tamara Nack of Gray & Osborne, Inc., regarding the City of Dupont's water conservation plan. Ms. Nack indicated that it will take at least a few months for the City to submit a conservation plan and obtain Department of Health (DOH) approval.

As you and I discussed, one of the conditions on the above permit is that the City will prepare and implement a DOH-approved conservation plan. This is the case for all new water right permits for public water supply. The permit can progress to certificate stage once this condition has been met. A priority date of November 7, 1988, has been established for this permit; any water right applications filed after that date would be junior to it.

Rather than holding the City's checks for several months, I am returning checks No. 0020688 and 0020692, along with the Proof of Appropriation form that was signed by Mayor Gorgensen on June 14, 1993 (enclosed). We will ask the City to resubmit the Proof of Appropriation and fees when this permit is ready to go to certificate.

The permit period now extends through February 1, 1994. You will receive a reminder letter from our office at that time. If you will need more time for your conservation plan, you may request an extension of the permit, either in January or when you receive the reminder letter. There is a fee of \$5.00 per year extended.

If you have any questions, please feel free to contact me at (206) 586-6839.
